# Chapter 1

## Font sizes, families, and styles

L<sup>A</sup>T<sub>E</sub>X normally choose the appropriate font and font size based on the logical structure of the document (e.g. sections). In some cases, you may want to set fonts and sizes by hand.

### 1.1 Introduction

The syntax to set a font size or font style is easy:

```
This is a simple example, {\tiny this will show different font sizes} and also \leftrightarrow  
textsc{different font styles}.
```

This is a simple example, this will show different font sizes and also DIFFERENT FONT STYLES.
